SUBJECT INDEX

Acrosome
Timed breeding of rabbits with fresh and frozen-thawed semen and evidence of acrosome alteration following freezing and thawing 35
Aflatoxin
Factors related to decreased testosterone concentrations in the peripheral circulation of the maturing male chicken (*Gallus domesticus*) fed aflatoxin 25
Artificial insemination
Increasing breeding frequency in the ewe. 1. Fertilization of ova during the early post-partum period 1
Behaviour
Effect of limiting the number of days of contact with boars, season and herd of origin on the attainment of puberty in gilts 293
Breeding frequency
Increasing breeding frequency in the ewe.
1. Fertilization of ova during the early post-partum period 1
2. Endocrine status of lactating ewes induced to ovulate 28, 35 or 42 days post-partum 271
Capacitation
Testing capacitation of bull sperm with zona-free hamster ova 95
Castration
Effect of age at hemicastration on the body and testis weight of piglets 105
Cattle
Prolactin secretion after hypophysial stalk transection in prepuberal beef heifers 61
Absence of high-affinity binding sites for prolactin on the corpus luteum 87
Testing capacitation of bull sperm with zona-free hamster ova 95
Pituitary and ovarian responses to prolonged administration of low doses of GnRH in prepubertal heifers 111
Development to the late morula or blastocyst stage following in vitro maturation and fertilization of oocytes 139
Fertility of cyclic beef females following acute unilateral ovariectomy 155
Penetration of cervical mucus and other body fluids by bull sperm in capillary tubes 161
Puberty in heifers: a review 167
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183
Factors influencing pregnancy rate and calving date in four breeds of beef cows on an Ozark mountain range 243
Chicken
Factors related to decreased testosterone concentrations in the peripheral circulation of the maturing male chicken (*Gallus domesticus*) fed aflatoxin 25
Cold shock
Acquired resistance to cold shock in ram spermatozoa revealed by microscopy and a calcium radioassay 285
Corpus luteum
Absence of high-affinity binding sites for prolactin on the bovine corpus luteum 87
Cryptorchidy
Testosterone concentrations in normal and cryptorchid horses. Response to human chorionic gonadotrophin 43

Deer
Plasma prolactin concentrations in barren, pregnant and lactating red deer (*Cervus elaphus*) given melatonin to advance the next breeding season 77
Dystocia
Preliminary study on treatment of ringwomb in Iraqi goats 199
Embryo transportation
Proceedings of the International Embryo Movement Symposium (book review) 305
Embryology
Mouse embryo development in media containing growth factors 125
Development to the late morula or blastocyst stage following in vitro maturation and fertilization of bovine oocytes 139
Endocrinology - female, cattle
Prolactin secretion after hypophysial stalk transection in prepuberal beef heifers 61
Absence of high-affinity binding sites for prolactin on the bovine corpus luteum 87
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183
Pituitary and ovarian responses to prolonged administration of low doses of GnRH in prepubertal heifers 111
Follicular growth and endocrine patterns of prepuberal heifers administered bovine follicular fluid and (or) follicle stimulating hormone 227
Endocrinology - female, deer
Plasma prolactin concentrations in barren, pregnant and lactating red deer (*Cervus elaphus*) given melatonin to advance the next breeding season 77
Endocrinology - female, pig
Involvement of hypothalamic compounds in the expression of estrus in the pig 51
Endocrinology - female, sheep
Evaluation of progesterone controlled internal drug release dispensers for synchronization of estrus in sheep 205
Comparison of progesterone sponges, Cronolone sponges and controlled internal drug release dispensers on fertility in anestrous ewes 219
Effects of pregnancy and exogenous progesterone on immunosuppressive activity in the uterus and peripheral plasma of the ewe 253
Increasing breeding frequency in the ewe.
2. Endocrine status of lactating ewes induced to ovulate 28, 35 or 42 days post-partum 271
Endocrinology - male, chicken
Factors related to decreased testosterone concentrations in the peripheral circulation of the maturing male chicken (*Gallus domesticus*) fed aflatoxin 25
Endocrinology - male, horse
Testosterone concentrations in normal and cryptorchid horses. Response to human chorionic gonadotrophin 43
Feeding and nutrition
Factors related to decreased testosterone concentrations in the peripheral circulation of the maturing male chicken (*Gallus domesticus*) fed aflatoxin 25
Plasma prolactin concentrations in barren, pregnant and lactating red deer (*Cervus elaphus*) given melatonin to advance the next breeding season 77
Fertility
Fertility of cyclic beef females following acute unilateral ovariectomy 155
Comparison of progesterone sponges, Cronolone sponges and controlled internal drug release dispensers on fertility in anestrous ewes 219
Fertilization
Development to the late morula or blastocyst stage following in vitro maturation and fertilization of bovine oocytes 139

Follicle
Follicular growth and endocrine patterns of prepuberal heifers administered bovine follicular fluid and (or) follicle stimulating hormone 227
Freezing - semen
Timed breeding of rabbits with fresh and frozen-thawed semen and evidence of acrosome alteration following freezing and thawing 35
Acquired resistance to cold shock in ram spermatozoa revealed by microscopy and a calcium radioassay 285
FSH
Involvement of hypothalamic compounds in the expression of estrus in the pig 51
Follicular growth and endocrine patterns of prepuberal heifers administered bovine follicular fluid and (or) follicle stimulating hormone 227
GnRH
Pituitary and ovarian responses to prolonged administration of low doses of GnRH in prepubertal heifers 111
Goat
Preliminary study on treatment of ringwomb in Iraqi goats 199
Growth
Effect of age at hemicastration on the body and testis weight of piglets 105
HCG
Testosterone concentrations in normal and cryptorchid horses. Response to human chorionic gonadotrophin 43
Absence of high-affinity binding sites for prolactin on the bovine corpus luteum 87
Hemicastration
Effect of age on the body and testis weight of piglets 105
Horse
Testosterone concentrations in normal and cryptorchid horses. Response to human chorionic gonadotrophin 43
Immunosuppression
Effects of pregnancy and exogenous progesterone on activity in the uterus and peripheral plasma of the ewe 253
In vitro embryo culture
Mouse embryo development in media containing growth factors 125
In vitro fertilization
Development to the late morula or blastocyst stage following in vitro maturation and fertilization of bovine oocytes 139
LH
Involvement of hypothalamic compounds in the expression of estrus in the pig 51
Pituitary and ovarian responses to prolonged administration of low doses of GnRH in prepubertal heifers 111
Melatonin
Effect of frequency of administration of melatonin on the time of onset of the breeding season in anoestrous ewes 13
Plasma prolactin concentrations in barren, pregnant and lactating red deer (*Cervus elaphus*) given melatonin to advance the next breeding season 77
Mouse
Mouse embryo development in media containing growth factors 125
Oestrogens
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183

Oestrous cycle
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183
Oestrus
Involvement of hypothalamic compounds in the expression of estrus in the pig 51
Oestrus synchronization
Evaluation of progesterone controlled internal drug release dispensers for synchronization of estrus in sheep 205
Ovariectomy
Ovulation rate after unilateral ovariectomy in the Booroola Merino ewe 149
Fertility of cyclic beef females following acute unilateral ovariectomy 155
Ovulation induction
Effect of frequency of administration of melatonin on the time of onset of the breeding season in anoustrous ewes 13
Ovulation rate
Ovulation rate after unilateral ovariectomy in the Booroola Merino ewe 149
Pig
Involvement of hypothalamic compounds in the expression of estrus 51
Effect of age at hemicastration on the body and testis weight of piglets 105
Effect of limiting the number of days of contact with boars, season and herd of origin on the attainment of puberty in gilts 293
Post-partum period
Increasing breeding frequency in the ewe. 1. Fertilization of ova during the early post-partum period 1
Pregnancy
Effect of pregnancy and exogenous progesterone on immunosuppresaive activity in the uterus and peripheral plasma of the ewe 253
Pregnancy rate
Factors influencing pregnancy rate and calving date in four breeds of beef cows on an Ozark mountain range 243
Progesterone
Pituitary and ovarian responses to prolonged administration of low doses of GnRH in prepubertal heifers 111
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183
Evaluation of progesterone controlled internal drug release dispensers for synchronization of estrus in sheep 205
Comparison of progesterone sponges, Cronolone sponges and controlled internal drug release dispensers on fertility in anestrous ewes 219
Effects of pregnancy and exogenous progesterone on immunosuppressive activity in the uterus and peripheral plasma of the ewe 253
Prolactin
Prolactin secretion after hypophysial stalk transection in prepuberal beef heifers 61
Plasma prolactin concentrations in barren, pregnant and lactating red deer (*Cervus elaphus*) given melatonin to advance the next breeding season 77
Absence of high-affinity binding sites for prolactin on the bovine corpus luteum 87
Prostaglandins
Changes in electrical resistance of vulvar tissue in Holstein cows during ovarian cycles and after treatment with prostaglandin $F_{2\alpha}$ 183
Puberty
Puberty in heifers; A review 167

Effect of limiting the number of days of contact with boars, season and herd or origin on the attainment of puberty in gilts 293
Rabbit
Timed breeding with fresh and frozen-thawed semen and evidence of acrosome alteration following freezing and thawing 35
Ringwomb
Preliminary study on treatment of ringwomb in Iraqi goats 199
Semen
Timed breeding of rabbits with fresh and frozen-thawed semen and evidence of acrosome alteration following freezing and thawing 35
Sheep
Increasing breeding frequency in the ewe.
1. Fertilization of ova during the early post-partum period 1
2. Endocrine status of lactating ewes induced to ovulate 28, 35 or 42 days post-partum 271
Effect of frequency of administration of melatonin on the time of onset of the breeding season in anoustrous ewes 13

Comparison of progesterone sponges, Cronolone sponges and controlled internal drug release dispensers on fertility in anestrous ewes 219
Acquired resistance to cold shock in ram spermatozoa revealed by microscopy and a calcium radioassay 285
Spermatozoa
Testing capacitation of bull sperm with zona-free hamster ova 95
Penetration of cervical mucus and other body fluids by bull sperm in capillary tubes 161
Acquired resistance to cold shock in ram spermatozoa revealed by microscopy and a calcium radioassay 285
Techniques - sperm capacitation
Testing capacitation of bull sperm with zona-free hamster ova 95
Temperature
Temperature and animal cells (book review) 303
Testis
Effect of age at hemicastration on the body and testis weight of piglets 105
Testosterone
Factors related to decreased concentrations in the peripheral circulation of the maturing male chicken (*Gallus domesticus*) fed aflatoxin 25
Concentrations in normal and cryptorchid horses. Response to human chorionic gonadotrophin 43
Uterus
Effects of pregnancy and exogenous progesterone on immunosuppressive activity in the uterus and peripheral plasma of the ewe 253
